

# The Kneee

VOLUME 38

CONTENTS

OCTOBER 2022

## Editorial

Is obesity the new pandemic?

C.B. Hing, O. Al-Dadah

A1

## Reviews

Primary repair with suture augmentation for proximal anterior cruciate ligament tears: A systematic review with meta-analysis

H.D. Vermeijden, J.P. van der List, J.L. Benner, M.V. Rademakers, G.M.M.J. Kerkhoffs, G.S. DiFelice (United States, The Netherlands)

19

The role of patient characteristics and the effects of angiogenic therapies on the microvasculature of the meniscus: A systematic review

T.J.N. van der Lelij, L.M. Gerritsen, E.R.A. van Arkel, R. Munnik-Hagewoud, R.G. Zuurmond, S. Keereweer, P. van Schie, P.B.A.A. van Driel (The Netherlands)

91

The meniscal tear outcome (METRO) review: A systematic review summarising the clinical course and outcomes of patients with a meniscal tear

I. Ahmed, F. Dhaif, C. Khatri, N. Parsons, C. Hutchinson, S. Staniszewska, A. Price, A. Metcalfe (United Kingdom)

117

## Basic science

Variation in Kaplan fiber insertion to the distal femur and surgical implications: A cadaveric anatomical study comparing Asian and Caucasian knees

S. Raghavan, S.H. Teo, M.Z. Mohamed Al-Fayyadh, M.R. Mohamed Ali, W.M. Ng (Malaysia)

56

The effect of obesity on complications following isolated posterior cruciate ligament reconstruction

A.M. Ifarraguerri, T. Quan, S.L. Bernstein, A. Malyavko, C. Gioia, A. Gu, T. Doerre, M.J. Best (United States)

164

## Biomechanics & Kinematics

Females with knee osteoarthritis use a detrimental knee loading strategy when squatting

O.R. Bayliss Zajdman, T.E. Flaxman, H.J. Biggam, D.L. Benoit (Canada)

9

Thinner tuberosity osteotomy is more resistant to axial load in medial open-wedge distal tuberosity proximal tibial osteotomy: A biomechanical study

H. Ogawa, Y. Nakamura, M. Sengoku, T. Shimokawa, K. Sohmiya, K. Ohnishi, K. Matsumoto, H. Akiyama (Japan)

62

Computer-assisted navigation in ACL reconstruction improves anatomic tunnel placement with similar clinical outcomes

W.Y.X. Foo, A.C.C. Chou, H.M. Lie, D.T.T. Lie (Singapore)

132

Comparison of biomechanical analysis of four different tibial tunnel fixations in a bovine model

F. Erpala, T. Ozturk, M. Burtac Eren, H. Ertem, E. Cagatay Zengin (Turkey)

193

Visualising knee loading patterns during kneeling and the development of a laboratory-based adaptation of the Aberdeen Weight-Bearing Test (Knee)

S. Thwaites, M. Rickman, D. Thewlis (Australia)

201

Plantaris tendon is valuable graft for the medial patellofemoral ligament reconstruction: A biomechanical study

J. Vlais, M. Josipovic, I. Bohacek, A. Pilipovic, P. Skavic, Z. Schauerperl, M. Jelic (Croatia)

212

## Soft Tissue

Ipsilateral ACL injured patients with Segond fractures demonstrate increased posterior tibial slope

L. Haase, S. Magister, G. Nelson, Y. Raji, J. Calcei, J. Voos, M. Karns (USA)

76

Clinical outcomes of medial meniscus posterior root repair: A midterm follow-up study T. Furumatsu, S. Miyazawa, Y. Kodama, Y. Kamatsuki, Y. Okazaki, T. Hiranaka, Y. Okazaki, K. Kintaka, T. Ozaki (Japan)	141
<b>Arthritis &amp; Osteotomies</b>	
Anatomical description and short-term follow up clinical results for ultrasound-guided injection of medial collateral ligament bursa: New conservative treatment option for symptomatic degenerative medial meniscus tear J. Nakase, R. Yoshimizu, M. Kimura, T. Kanayama, Y. Yanatori, H. Tsuchiya (Japan)	1
Perioperative duloxetine administration reduces pain after high tibial osteotomy and non-steroidal anti-inflammatory administration: A prospective, controlled study S. Otsuki, Y. Okamoto, K. Ikeda, H. Wakama, T. Okayoshi, M. Neo (Japan)	42
Knee adduction moment is correlated with the increase in medial meniscus extrusion by dynamic ultrasound in knee osteoarthritis Y. Ishii, M. Ishikawa, Y. Nakashima, M. Takahashi, Y. Iwamoto, T. Hashizume, S. Okamoto, T. Sunagawa, K. Okada, K. Takagi, N. Adachi (Japan)	82
Patient specific instrumentation allow precise derotational correction of femoral and tibial torsional deformities G. Micicoi, B. Corin, J.-N. Argenson, C. Jacquet, R. Khakha, P. Martz, M. Ollivier (France, UK)	153
<b>Rehabilitation &amp; Orthotics</b>	
Accelerated rehabilitation program following medial patellofemoral ligament reconstruction does not increase risk of recurrent instability R.A. Magnussen, N.J. Peters, J. Long, N. Pappa, L.C. Schmitt, C.L. Brunst, C.C. Kaeding, D.C. Flanigan (United States)	178
<b>Arthroplasty</b>	
Comparison of total joint arthroplasty care patterns prior to the Covid-19 pandemic and after resumption of elective surgery during the Covid-19 Outbreak: A retrospective, large urban academic center study K.C. Shah, J. Poeran, N. Zubizarreta, K. McCardle, J. Jebakumar, C.S. Moucha, B.L. Hayden (USA)	36
Readmissions and mortality after outpatient vs inpatient unicompartmental knee arthroplasty in Denmark – A propensity score matched study of 5,384 procedures K.B. Arndt, C. Varnum, M. Lindberg-Larsen, C.B. Jensen, L.E. Rasmussen (Denmark)	50
Rotational mismatch between femoral and tibial components should be avoided in JOURNEY II bi-cruciate stabilized total knee arthroplasty M. Fujita, T. Matsumoto, N. Nakano, K. Ishida, Y. Kuroda, T. Maeda, S. Hayashi, R. Kuroda (Japan)	69
Cartilage assessment using preoperative planning MRI for femoral component rotational alignment T. Kato, M. Motoyama, N. Adachi, M. Deie (Japan)	107
Regional economic burden of revision total knee replacement: A cost-complexity analysis P.M. Reynolds, L. Al-Mouzzen, A. Alexiadis, J. Lau, H.B. Waterson, A.D. Toms (United Kingdom)	148
Understanding rates, risk factors, and complications associated with manipulation under anesthesia after total knee arthroplasty (TKA): An analysis of 100,613 TKAs P.J. Rullán, G. Zhou, A.K. Emara, A.K. Klika, S. Koroukian, N.S. Piuze (USA)	170
Evaluation of hindfoot and knee alignment by the hip-to-calcaneus view in patients with knee osteoarthritis and healthy individuals Y. Wanezaki, A. Suzuki, Y. Takakubo, T. Nakajima, S. Toyono, S. Toyoshima, M. Hariu, S. Okada, H. Ishikawa, M. Takagi (Japan)	184
<b>Case Reports</b>	
Two-stage TKA for tuberculosis septic arthritis of the knee masquerading as pigmented villonodular synovitis: A case report R. Samade, R.T. Voskuil, T.J. Scharschmidt (United States)	30
